Dangerous
kerosene lamp

Over 1 billion people
live off-grid without
access to electricity

1 day solar
charging:
80 hours
of light!

GOOD& MOJO

BACK TO SUSTAINABILITY

We, the Mojoz,
want to do good by creating
sustainable lights & helping people
at the same time!

We only use sustainable materials
such as recycled paper, cork, wood chips,
eco linen and bamboo in all its varieties.

For every lamp you buy, we donate to the
WakaWaka Foundation. They provide solar lights
to people in humanitarian aid situations in off-grid areas
throughout the world. WakaWaka is the safe alternative to
dangerous kerosene lamps, helping many lives.
